

Inventory Control ...made easy

*The POS Solution you can count on
is right here in your own backyard!*

Take Control of your inventory...

Increase Sales

- Know more about what sells in your store
- Keep a closer eye on inventory counts to help prevent sales loss.
- Product & customer pop-up notes for upsell suggestions and special treatment
- Track customers & send specifically targeted mailings to dramatically increase sales.

Lower Costs

- Computer-printed price tags dramatically save time and are easier to read.
- Issue (and track) store credit for returned merchandise instead of paying out cash.
- Track inventory changes to help prevent and identify theft.
- Increase speed & accuracy at the register by using a bar code scanner.

• Affordable • Reliable • Powerful • Easy

"Every other framing package I tried was deficient in one or more areas. I had just about given up when I discovered Artisan Storefront... All the folks at CerTek Software Designs have been amazing...I do not hesitate recommending Artisan Storefront."

— Arlene Adamski, Skolnick Photo Frames, Inc.

"Dollar for dollar, this is the best system out there. Easy to set up and maintain, and Customer Service had the answer every time."

— Jennifer Migliore, Artware, Inc.
